

## ADA Toe Kicks

White Powder Coated Steel

The setback is measured from the back of the door to the back of the toekick.

This 18 gauge steel powder coated bracket allows the toe kick to swing out with the cabinet door allowing unimpeded access for wheel chairs to sink, counter, desk, or other work areas.

The toe kick can be the same material as the cabinets allowing a truly professional quality job without complicated joinery. This fully adjustable bracket provides a quick, strong, and inexpensive solution to achieving a quality project. Available in two offsets of 3" and 4" to allow for different toe kick depths.

<u>Code</u>	<u>Description</u>	<u>List/pr</u>
TK3-WH	ADA Toe Kick, 3" Setback	\$ 29.32
TK4-WH	ADA Toe Kick, 4" Setback	32.35
